# DIFFERENTIATORS

## MISSION-DRIVEN FAMILY-OWNED BUSINESS

Following a mission focused on our people that extends to our customers and partners: to provide the means for self-reliant individuals to improve both their quality of life and standard of living.

## CONTINUITY

Proven, loyal, long-tenured talent pool. Dedicated staffing and operations support for the life of a contract.

## INVESTING IN PEOPLE

Investing in the training of its current workforce as cybersecurity analysts to offer a financially advantageous staffing solution to help customers grow in a field where qualified talent is in short supply.

## HANDS-ON EXPERIENCE

Practical experience in a Security Operations Center (SOC) that protects both the internal and external networks which NPC monitors.

## RURAL-SHORING

Offering an alternative talent pool in a strategic location in central Pennsylvania, situated a short two-hour drive outside of the high cost-of-living-and-working Washington, D.C. metro area.

## PROVEN TRACK RECORD

Nearly 60 years of Federal Government Contracting experience, supporting large-scale, short-turn ramp-up projects. One of the top suppliers to the Government Publishing Office for the last 20+ years.

## ABOUT NPC

NPC was founded as a weekly local newspaper business with a handful of employees in 1954, and has since evolved into an information management and distribution solutions company with nearly 500 employees and multiple secure production facilities in central Pennsylvania. NPC has a history of devising IT solutions to help customers better use their data to more effectively communicate and engage with their stakeholders.

For nearly 60 years, NPC has been creating custom solutions using innovative personnel, technologies and processes for federal government customers. We have been a top supplier of print and related services to the Government Publishing Office for the last 20+ years and the #1 supplier for eight out of the last nine years.

## CORPORATE SECURITY

- SSAE-16 SOC 2 Type 2
- FISMA NIST 800-53 Moderate Level
- PCI DSS 3.2
- HIPAA / HITECH
- Tier 2 / Moderate Background Investigation (MBI) for employees
- Robust physical security
